MOOSE CLUB ENTERTAINS FRIENDS.

Hickman Lodge No. 1294, Loyal Order of Moose, opened the doors of their handsome new club rooms last Thursday afternoon and night to the public and entertained their friends in a royal manner.

The new home is a credit to a town much larger than Hickman, and the taste and judgment used in the selection of the furnishings and fittings redounds to the credit of those having this part of the work in their charge. There are reading rooms, pool rooms, etc., fitted with big easy chairs, etc., that are very inviting. The lodge room can be turned into a dance hall in a very few minutes and has one of the best and largest floors in this end of the State.

A reception was held in the afternoon, to which the general public was invited, with music by a Paducah orchestra. Invitations had been issued for Thursday night, and the hall was crowded almost overflowing. National Director D. A. McClellan, on behalf of the local lodge, extended welcome to the invited guests, and in the course of his remarks mentioned the work that the Loyal Order of Moose had undertaken in looking after the widows and orphans of the Order, and pictured the head camp at Mooseheart, Ill., in a very impressive way. He is a fluent and entertaining speaker and promised to deliver a lecture to the citizens of Hickman in the near future about the Loyal Order of Moose and the great work it is doing. He is sure to have a good audience to hear him when he announces the date of the lecture. After his talk, Dictator A. M. Shaw in a few well chosen words formally turned the hall over to the guests of the lodge for their entertainment.

Everyone of the large crowd present seemed to enjoy themselves to the utmost, and certainly it was the nicest thing that has been pulled off in Hickman in many moons.

AUTO BURNED THURSDAY NIGHT.

A 5-passenger automobile belonging to Ike Bowden, Tom McCauley and Olie Lowery together with the garage, was burned Thursday night about 11:30, nothing being saved from either the building or car. The car was purchased from H. C. Helm about two weeks ago by the partners, all negroes, for jitney service. The boys were working on the car with coal oil lamps and lanterns in the building, the gas ignited and in a few seconds the flames had gotten beyond control.

25,000 BUSHELS OF CUCUMBERS WANTED.

A special from Paducah says: "The Paducah Vinegar Works is ready to begin receiving cucumbers, which it will manufacture into pickles, and expects to purchase about 25,000 bushels. About 100 acres of McCracken county farm land were used for raising cucumbers at the solicitation of the company. The yield is expected to be about 200 bushels to the acre. The company will pay 75 cents a bushel for cucumbers from four to five inches in length. All cucumbers under 5 inches are acceptable."

NO PAPER NEXT WEEK.

Next week is the Courier's semi-annual holiday week. Ordinarily we print no paper 4th of July week, but on account of legal advertising which must be run, a small, four-page paper will be issued next Thursday. This issue will be a mere excuse and will not carry the regular run of local news, being printed in advance of publication day.

The Courier force will take a week's vacation, and be back on the job Monday, July 12th.

The finishing touches are being put on the handsome new residence of Judge F. S. Moore, and it will be ready for occupancy in a week or two.

ESQ. WILLIAMS DIES AT CAYCE MONDAY.

Lacking only about two months of rounding out 74 years, that honorable, active, peerless citizen, Esq. John W. Williams, of Cayce, passed away Monday morning at 4 o'clock, after a partial illness covering years, and a serious illness of 2 weeks. The attending physician, Dr. J. W. Naylor, informs us that kidney trouble was the cause of his demise.

Esq. Williams was one of the staunch, trusted men of Fulton county. For eight consecutive years, he served the county as magistrate from the Cayce district but declined to run in the last election on account of failing health and was succeeded by Esq. Atteberry. His tenure of office was more than satisfactory to his constituency, as well as the entire country.

For many years Esq. Williams had resided on his farm two miles east of Cayce, coming to this section some 40 years ago. He was born in Weakley county, Tenn. His wife (before marriage Miss Bettie Campbell), and two children survive him; a daughter, Mrs. John Tyler, of Lodgton; and a son, Clarence Williams, of Fulton; besides a number of other relatives.

In the death of Mr. Williams, Cayce and Fulton county lose a valuable citizen. He was the embodiment of honesty, integrity, uprightness. His virtues were legion; his faults few. No man in the county stood higher in the estimation of his fellowman. Deceased served with gallantry and distinction the cause of the Confederacy, putting in the full four years in the infantry. He was a life-long member of the Methodist church; also a member of the Masonic lodge at Cayce.

The remains were laid to rest in the family (Campbell) grave yard Tuesday, after services by his former friend and pastor, Rev. Spears, and with final services in charge of the Masonic lodge of Cayce.

HORSES FOR WAR BY THE TRAIN LOAD.

A few days ago, in the early hours of the morning, we noticed a solid load of horses and mules going through Union City to New Orleans, thence to Europe, where they will be used — or rather killed and maimed—in the great struggle between mad races of the east. The night clerk of the hotel informed us this was nothing unusual; that almost every day a train load of these poor brutes passed through that city for Europe.

At this rate—if other railroads are carrying a proportionate number—it will not be long before this country will be "a-foot," and short of beasts of burden.

Anything—anyway—to get the \$.

J. W. NEWMAN QUILTS RACE FOR GOVERNOR.

Louisville, Ky., June 24. —Asserting that the "Democratic party in Kentucky today faces a crisis," John W. Newman, commissioner of agriculture, Thursday announced his withdrawal as a candidate for the Democratic nomination for governor. Newman calls attention to the dissension in the Democratic ranks and also to what he views menacing of the Republican force and asserts there is yet time to successfully meet the crisis.

JOE WHITSON DEAD.

Joe Whitson, about 50 years old, died at his home near Bessie on Thursday of last week, after a lingering illness. Mr. Whitson had been in bad health since early in the spring and gradually grew worse. Deceased is known by many people of this county, having formerly lived near Ridgeville. He is survived by his wife and several children. Remains were interred in the graveyard in Kentucky Bend last Friday. —Lake County News.

ENGLISH SUPPLY SHIP SUNK. 10 AMERICANS LOST.

Washington, June 30. — Twenty-nine persons were killed, ten injured and ten Americans are missing and probably dead as the result of the sinking of the Dominion line freighter Armenian by the German submarine U-38, 20 miles northwest of Cornwall, England, Monday.

The Armenian sailed from Newport News for Avonmouth on June 17.

The vessel was of 8525 tons gross register, 512 feet long and had a beam of 59 feet and depth of 35 feet. The Armenian was a British steamship.

At the office of the International Mercantile Marine it was said that the exact composition of the cargo of the Armenian was unknown, but that it was presumed at least a part of her cargo was contraband. Miscellaneous supplies, the officials of the line said, they believed made up a considerable portion of the cargo.

London, June 30.—The Norwegian ship Cambuskenneth, which sailed from Portland, Ore., Feb. 9, for Liverpool, was sunk today by the German submarine U-39. Thirteen members of the crew were landed. Eight other sailors, being German subjects, were taken aboard the submarine.

The Cambuskenneth carried a cargo of 110,568 bushels of wheat valued at \$171,380. Her cargo had been sold to English brokers before she passed across the Columbia river bar on February 12.

The British steamer Scottish Monarch, bound from New York for Manchester with a cargo of sugar, was torpedoed and sunk yesterday by a German submarine. The steamer's crew of thirty-six men took to the lifeboats.

The Norwegian steamship Gjeso of 1094 tons gross also was sunk by a German submarine today. The crew was landed at North Shields. The vessel was sent to the bottom by a torpedo.

ONE YEAR OF IT.

On June 28, 1914, one year ago Monday, a lunatic, in the streets of Sarajevo, murdered the Archduke of Austria. As a result of the fatal shot, 11 countries are engaged in the most cruel war in history. We have had one year of it and despite all the expert calculations the people of countries looking on are unable to find anything gained—but everything lost. We shall probably have another year of it—possibly two—and then that shot will cease to echo. And when it is all over and the spoils distributed none will have gained anything worth while. It's simply a foolish war and no philosophical or military treaties can ever change this impression in the minds of the vast majority of thinking men. Would that one year of it were all—certainly one year of it is enough.

FORMER HICKMAN PUBLISHER IS DEAD.

Beaton, Ky., June 29. — Louis E. Dodd, a well-known printer and also newspaper man of this end of the State, died at his residence here at 8:30 o'clock this morning, of chronic lung trouble, age 45 years. Mr. Dodd has been in failing health for some time, and his end was not unexpected. This place had long been the home, with short intervals, of the deceased, and he was a man highly esteemed by all friends. Some years ago Mr. Dodd edited and published the Benton Tribune-Democrat. Later he edited and published (in 1904) the Dixie Star, at Hickman, Ky. Subsequently he edited and published

DARIO RESTA WINS 500 MILE RACE.

Speedway, Chicago, June 26.—Dario Resta today won the 500-mile speedway automobile race, and incidentally shattered several world's competitive records. The time was 5 hours, 6 minutes, or about twenty-six minutes faster than the previous record DePalma held. He won more than \$20,000 in prize money. Eighty thousand people saw the race. Porporato was second, and Rickenbacker third. Resta's average was ninety-seven and six-tenths miles an hour. Porporato averaged ninety-six and five. He was three miles behind Resta.

In the mention of the withdrawal of J. Kelly Smith from the representatives' race, we left out the name of Maywood Williams as one of the remaining contestants. In fact a line of type was dropped from the article, which makes it read quite different from the original copy.

Work will probably begin some time in July on the three or four miles of model gravel road east of Hickman, which will be built at the expense of property owners along the route and the State. A government engineer arrived here Monday to make the survey—grades, drainage, etc. His services are also free. This piece of road will serve as a sample of hard roads, showing whether they are a benefit or a nuisance; its construction will also give us an approximately correct idea of cost, which has been a much discussed and unsettled question. As the county and taxpayers (except those footing the bill) will pay nothing on this work, there ought not to be a great deal of kicking on the innovation.

KILLING AT CAIRO.

As the result of a long standing feud Ed H. Houchen, 28, Monday afternoon shot and mortally wounded Bert Roberts, 24, on the Ohio river, near East Cairo, on the Kentucky side of the river, while the former was approaching him in a gasoline ferry boat. Houchen himself was in a gasoline launch at the time of the shooting and made off up the river immediately following the tragedy.

The shooting was witnessed by several persons. They saw Houchen shoot twice, one shot going wild, and the second piercing Robert's head, the latter falling unconscious to the bottom of his boat. Joe Broadway, Robert's stepfather, saw the shooting from a nearby launch and rushed to his aid, taking him to Cairo shore where he was met by the wounded man's mother and his 18-year old wife. He was removed to the Bondurant hospital where he died at 8:30 o'clock, without ever regaining consciousness.

CHURCH OF CHRIST NOTES.

On account of the union services at the M. E. church Sunday night, the pastor of the Baptist church preaching the sermon, there will be no services at the Crystal on Sunday night, and as the pastor has only failed once on Sunday in the year of being in the pulpit he will be out of the city on that day, assisting one of our sister churches that had no regular preaching for months.

The regular services however, will be observed on Sunday morning at the church. Bible school at the regular hour and communion services following that. All will then attend the services at the other churches, as they may choose. It is most earnestly hoped that all will attend the union services in the evening and give Dr. Hutchinson a good hearing. So many people fail to understand that one half of the addresses come from the pews, that they neglect to attend and then wonder why their preacher is not always up to the standard.

Regular services at the church and the Crystal on the following Sunday. Brief addresses at both morning and evening services.

Show her that your love is true—
Tell her so.

There was a time you thought it
bliss,
To get the favor of one kiss,
A dozen now won't come a miss—
Tell her so.

Your love for her is no mistake,
You feel it, dreaming or awake,
Don't conceal it—for her sake
Tell her so.

Don't act, if she has passed her
prime,
As though to please her were a
crime;
If ever you loved her, now's the
time—
Tell her so.

She'll return for each caress,
A hundredfold of tenderness,
Hearts like hers were made to
bliss,
Tell her so.

You are hers and hers alone,
Well, you know she's all your
own,
Don't wait to "leave it on a
stone"—
Tell her so.

Never let her heart grow cold,
Richer beauties will unfold,
She is worth her weight in gold—
Tell her so.

It is reported that the organization behind Mr. McChesney is preparing to requisition 1,000 preachers to make political speeches for him during the last two weeks of the campaign.

POLICE COURT NEWS.

The following cases have been tried in Police Court by Judge W. B. Amberg since last report:

On charge of breach of the peace, these were fined \$11.50 each: Jno. Provow, Dave Murphy, Bert Wallace, Hulet Slate, T. J. Kemp.

Two—Bert Wallace and Hillary Bracy—drew fines of \$16.50 each for breach of the peace.

BETTER STOP IT.

County Atty. Roney and Judge Stahr have decided that automobile speed fiends and road hogs in Fulton county must have a little more consideration for both law and common courtesy. No driver has a right to all the road when passing another vehicle; there is also a speed limit. These the court says, must be observed; and he is going to make it his business to see that they are.

How to Care For Oriental Rugs.

If your oriental rug is soiled and dull looking make a thick batter of naphtha soap and tepid water. Then take a heavy but soft rug and soak in the suds. Rub this over the rug with the knaps. Blouse out and repeat the process until no dirt comes out. Then go over the rug with clear, warm water until no soap appears. Fluffy bang in the open air and sunlight. Do not be afraid that the sun will fade an oriental rug. An occasional sun bath will keep away moths and seems to bring out the colors after the rug has been washed. Never lend an oriental rug. It tears the fringe and wears out the rug.

Without a Complaint

More good biscuits, pies, cakes and other pastry have been made from Plansifter, Ladies Aid, Snow Flake, Star, High Patent and Harlan's Self Rising Flour in Hickman, Ky., in the past ten years than all other brands combined.

Always a perfect bake, always a perfect success, because these brands are backed by our forty years' experience in making good flour, and the watchful eye of our experienced millers are over each bag and barrel produced, thereby enabling us to ABSOLUTELY GUARANTEE every one to GIVE ENTIRE SATISFACTION.

Do not be misled or persuaded into buying other "just as good kinds," but call for and demand these old tried and true brands that have stood the test of these many years.

We beg to thank the good people of Hickman and vicinity for their liberal patronage and support in the past, and assure you that QUALITY FIRST will continue to be our motto, and we offer these brands for sale in Hickman by the following merchants:

HOW TO GROW ALFALFA IN WESTERN KENTUCKY.

The planters owning land around Hickman, and especially in the lower bottom, are making big money on alfalfa this year. Alfalfa raising even in this section is merely in its infancy and in a few more years it is going to be one of the leading agricultural products of this end of the State. It is being shown that alfalfa can be grown successfully in all counties in Western Kentucky and that it is unquestionably the most valuable crop a farmer can grow. Any well-drained land that will produce eight to ten barrels of corn or one thousand pounds of tobacco will grow alfalfa profitably, provided the four essentials needed in its growth are present or added: first, plenty of limestone; phosphate, humus, and inoculation of the soil.

A good time to sow alfalfa is from the 15th of August to the 10th of September. A crop of corn, tobacco or peas can not be gotten off the ground in time for sowing, therefore select a piece of ground that has been in wheat, oats, early potatoes or a crop of peas chopped into the ground and not cut for hay. If barnyard manure is plentiful, put it on the ground and plow it under. If not, it would be well to sow cowpeas in the spring and chop them in the ground by the first of August. If the alfalfa is to be sown after wheat or oats, begin as soon as the wheat is threshed to disk the ground, then plow it, dragging each day's plowing. Continue to work it frequently, making a perfect seed bed.

Be sure to inoculate the seed. This can be done by means of the Government culture or by using dirt from an old alfalfa or sweet clover field. If convenient, use both. Dirt from an old alfalfa field should be spread over the land and harrowed in immediately, or the sun will kill the germs.

Sow from 15 to 20 pounds of good, clean alfalfa seed per acre. If sowing is delayed later than September 10th, the alfalfa will not be sufficiently rooted to stand freezing and will leave out during the winter.

You can secure the Government culture now free of charge, in quantities up to that necessary for two bushels of seed. You can buy your seed from any reliable seed dealer. Insist on getting good, American grown seed.

Information of Priceless Value to Every Hickman Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney trouble, backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Hickman citizen who used them and who publicly tells of the benefit derived?

Mrs. R. Graves, Hickman, says: "I still use Doan's Kidney Pills, procured at Helm & Ellison's Drug Store, when a cold affects my kidneys and they cure me. You may continue publishing the endorsement I have given before."

FOURTH OF JULY TETANUS OR LOCKJAW.

Get ready for next week!

The remarkable campaign for the diffusion of knowledge as to the practical prevention of lock-jaw following injuries received on the Fourth of July, is bearing fruit. In 1903 there were 417 deaths from lock-jaw amongst the Fourth of July victims. By 1909 this number had been reduced to 130, and last year there were only 3.

Blank cartridges and similar penetrating wounds are the great cause of lock-jaw. Every punctured wound made by an unsterilized instrument or object is dangerous. The lock-jaw germs thrive only in the absence of oxygen. On this account the physician should be called at once and he will enlarge the wound and remove all foreign material and clean it out in such a manner as to prevent the development of the germs or seed of disease. In order to secure results it is generally necessary to administer ether or some other general anesthetic. The anti-tetanus serum is of real value as a preventive measure, provided it is given within a few hours after receipt of injury.

Parents should realize that Fourth of July and other tetanus or lock-jaw is easy to prevent but extremely difficult to cure. Every punctured wound should receive careful medical attention. However slight the injury may appear, summon a physician who will adopt energetic measures. Most lives are sacrificed from lock-jaw which put reliance upon home treatment.

The State Board of Health keeps a constant supply of anti-serum at its Laboratory in Bowling Green and can supply it at actual cost to any physician who wires or telephones for it.

Doing hard work in a bent or stooping position puts a stitch in the back that is painful. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of BALLARD'S SNOW LINIMENT will appeal to you most strongly at such times, because it is the very thing you need. Price 25c 50c and \$1.00 per bottle. Bosworth Efficient Official.

"No one will be unfair enough to say that Mr. Bosworth has made the State a most excellent Auditor of Public Accounts; that he has been weighed in the political balance and found wanting; as a member and chairman of the State Board of Valuation and Assessment he stood like a stone wall for the people's rights against corporate greed and wealth; as State Treasurer he made a most excellent official. In fact, wherever duty has called his excellent and courageous Democrat, he has always bared his breast to the front of the army and always acquitted himself with honor, as well as reflecting honor and credit on the State. He is, indeed, a clean-handed and open fighter and an honorable, upright public official. If nominated and elected, he will make a 'model Governor.' "—Anderson News. Adv.

PROMINENT LAWYER OF HUMBOLDT KILLED.

W. H. Bobbitt, a prominent lawyer of Humboldt, was killed near Trenton Wednesday morning, June 22, by a northbound Mobile & Ohio freight train. Mr. Bobbitt was on his way from Trenton to the Gibson Wells, and when crossing the railroad about a mile out of town the fast freight struck the automobile and he was instantly killed.

Ross Campbell, the young man at the wheel, was thrown about sixty feet into a field and the machine was wrecked. Campbell was severely bruised but no serious injuries were sustained.

Reports as to the manner in which the accident occurred are conflicting. From what can be gathered, however, the driver, Campbell, took his chances of crossing before the fast approaching train after being warned by a young man driving a wagon meeting the machine.

PROMINENT LAND SUIT.

Several attorneys including Swigart and Frye, of Union City and Stone of Ripley, were in the city on last Friday and Saturday taking depositions. A suit has been filed in chancery court by the J. C. Harris estate vs. W. B. Anders, claiming that close to one hundred acres of land in District 8 in the Amberg tract, belongs to the Harris estate. In other words it is claimed that the Tennessee-Kentucky line above Phillips is not correct and that the real line is some two hundred yards north of the present site. The Amberg tract formerly belonged to the Tyler land and in years passed, the stakes were supposedly removed south by mistake or otherwise and from that time on, the Harris estate claims to be short about 100 acres.
Squire James C. Harris had knowledge of the removal and the late Judge Harris intended to bring suit but neglected doing so. Col. A. E. Markham, the present administrator, filed suit sometime ago. The suit will in all probability come up at the next session of chancery court—Lake County News.

The following proposition was submitted in writing to the Fiscal Court at its special session Monday afternoon, and is self-explanatory.

To the Hon. Fiscal Court of Fulton County:

To encourage hard roads in our county, I will make the following proposition:

1st: I will give \$100 to any man and each parcel or section of road, leading from any of the following places: Fulton, Lodge-ton, Jordan, Cayce, State Line, Sassafras Ridge; that will expend as much as \$1,000 on said section of road in 1915.

2nd: I will donate \$100 per mile for any gravel road put down according to State Engineer specifications, on any section of road in Fulton county, provided said parcel or section of road is built in the year 1915.

Signed,
S. L. DODDS.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel Is Quicksilver And Acts Like Dynamite On Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50c cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside and can not asivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

YOUNG MAN DROWNS.

The cruel waves claimed another victim last Sunday, when Crystal Laster, a seventeen year old boy, was drowned in a swimming hole near Besse. Several boys were in bathing when young Laster, who could not swim, ventured too far out and before the other boys could go to his rescue, he was drowned. The young man was the son of the late Ah Laster and his mother also died last year. He had recently been making his home with Claude Becker, at Besse. Burial took place in the Kentucky Bend grave yard Monday. —Lake County News.

OF INTEREST TO EMPLOYERS AND OTHERS.

Few of our readers are perhaps, aware that the United States Government, through the Department of Labor, has inaugurated as a part of the Division of Information a country-wide employment bureau. It is the belief of those connected with the work that it will go far towards improving business conditions in the United States. The underlying principle of the work is, perhaps, best expressed by the Secretary of the Department of Labor in the following words:

"The Department of Labor has established distribution branches throughout the country for the purpose on the one hand of developing the welfare of the wage earners of the United States and improving their opportunities for profitable employment, and on the other hand of affording to employers a method whereby they may make application for such help as they need, either male or female, citizens or alien residents, and have their wants supplied through said distribution branches."

Comparative statistics show that there has been in some portions of the United States a surplus of labor, while in other portions a deficiency. It is believed that this condition will be almost, if not entirely, eliminated by this work. This will appear from the following brief explanation of the system under which the work is conducted.

The United States has been divided into eighteen sections or "Distribution Zones," as they are called, and in each of these zones an employment office has been opened. These zones in nearly every case have been subdivided and branch offices opened under the jurisdiction of the controlling zone office. This means that a large number of employment offices have been opened by the United States Government. At these offices the employer who needs help of any kind, skilled or unskilled, be he farmer, merchant, manufacturer, or whatever his business, can secure what he needs without any more trouble or expense than the work of stating what he desires, and the expense of a postage stamp if he finds it inconvenient to call at the Distribution Office in person. Neither is any fee accepted by the government from those seeking employment. It goes even further, every postmaster in the United States is a representative of this Employment Bureau. At every postoffice in the United States will be found, on application to the postmaster, blanks for use of employers in need of help and for the use of persons seeking employment. These blanks, upon being handed to the postmaster are transmitted by him, free of charge, to the proper zone office, where blanks are properly registered, and proper help selected for the employer in need of help either from applicants residing in the city in which the office is located, or from the applications on file. On the day the employer's application is received by the Distribution Office, a copy is sent to the Division of Information, at Washington, D. C. At frequent intervals these applications are assembled and published in the form of bulletins and distributed to all Distribution Offices, thereby making it possible for each office to know where help of any description is in demand.

At the Distribution Office the best interests of the employer are kept constantly in mind, and only such help is selected for positions as are, in the opinion of the officer in charge, well qualified to perform the duties required.

If any reader of The Courier is now or expects shortly to be in need of help of any description, it is suggested that they write to the U. S. Distribution Branch, 412 Federal Building, Cleveland, Ohio, for the necessary information blanks.

REELFOOT LEVEE IS
BEING ENLARGED.

The Bondurant Construction Co. has been awarded the contract for enlarging Reelfoot levee in mile 12 and 13 and 1900 feet on 14, and a big force is now on the job. This section is the lowest part of the levee at present, but will be brought up five feet higher, or up to standard, which is two feet higher than any part of the levee today. The government has promised to bring all the levees up to standard next year as a result of this work by the Fulton County Levee Board.

The contract price is 16¢ a yard for 113,291 yards, or about \$18,000, payable in three yearly installments. The land owners in the bottom are guaranteeing the payment, which, should they have it to pay, would be approximately 25¢ per acre. Mr. Bondurant expects to complete this job within the next 60 days. When all the levee is built up to height of that section now being built, Reelfoot levee will be one of the strongest in the whole system. But, on account of the completion of levees on the other side of the river, it is very necessary to make this enlargement, as the same water we had in 1912-13 would throw it still higher here.

MISSING MISS PORTER IS FOUND IN CAIRO.

Willie Porter, the eighteen year old daughter of C. O. Porter, of near town, who has been missing from home since June 9th, was found at Cairo. She left home Wednesday afternoon, June 9th, to visit Mrs. Edward Garner for a few days and nothing was thought of her absence until last Sunday when it was learned that she had not been to Mrs. Garner's at all and a search was instituted at once for her.

An investigation revealed that Miss Porter came to Wickliffe in company of a young man and boarded a train for Cairo Wednesday night. Night policeman Hawthorne says he did not recognize the young man who brought the girl to town as he did not get out of the buggy, but says the young man requested him to flag the train for the girl as she wanted to go to Cairo. The girl gave as her excuse for going to Cairo at that time of night, the illness of a sister, and said her brother-in-law would be at the depot to meet her.

The young man who left the Porter home with the girl says he left her at the home of Mrs. Garner, and denies having any knowledge of her going away or her whereabouts. Mrs. Garner avows the girl never came to her home, and the statement made by Night Policeman Hawthorne of the girl's going away on the train seems to bear Mrs. Garner out in her statement.

Mr. Porter spent Monday and Tuesday in Cairo searching for the girl but failed to get any clue to her whereabouts until Wednesday when she was located and returned to her home with her father Thursday morning.—Wickliffe Yeoman.

WILL OIL STREETS.

A subscription paper circulated by J. C. Ellison among the business men on Clinton street has been fully signed up and means that this street will be oiled down with regular road oil. The plan is to oil from the county jail east to the Dodds corner, also the side streets.

Plans are under way for oiling several sections of residence streets. Among others, the money has already been subscribed for oil on the street from the Episcopal church to L. P. Ellison's residence.

This oil will cost \$4.60 per hundred gallons delivered in Hickman. As a car load must be ordered (4000 gallons) there will be a surplus over what is actually needed at present, and parties interested in oiling their streets may purchase this oil at the wholesale price by applying to J. C. Ellison. It requires one gallon of oil for each two square yards.

CANDIDATES WILL SWEEP FULTON COUNTY.

The candidates for Commonwealth's Attorney have arranged the following schedule for their speaking in Fulton county:

Hickman, Tuesday, July 13th.
Cayce, Wednesday, July 14th.
Fulton, Thursday, July 15th.
Crutchfield, Tuesday, July 20th.
The candidates are H. J. Moorman, R. G. Robbins, Ben Adams, J. B. Wickliffe and Henry Turner. In each instance, speaking will begin at 2 o'clock in the afternoon.

HOLD POTATOES.

Because of the over-production in all sections where they are raised there is practically no market at present for old or new Irish potatoes. The best thing a farmer can do is to let his potatoes stay in the ground and mature. Then he can save them until such time when he can sell at a reasonable profit. The market is glutted with them now, and the best new potatoes are quoted at only 75c a bushel.

SMITH OUT OF RACE FOR REPRESENTATIVE.

J. Kelley Smith writes us under date of June 29th that he has withdrawn from the race for representative of this district. Mr. Smith is a Clinton attorney.

This leaves only three contestants—Atty. W. J. McMurry, of the east side, and W. L. Hillman, of Clinton.

Miss Celeste Roberts delightfully entertained Tuesday evening from 8 to 11. Punch was served as the guests arrived. Conversations and progressive conversation were enjoyed. At the close of the evening delicious maple nut cream and burnt caramel cake were served. Those present were Misses Mildred and Irene Thompson, Jane Binford, Bess Choate, Annie Lee Brown, Thelma Baltzer, Anna Lynn Dodds, Camille Barrett, Carrie May Reid, Messrs. Baltzer Dodds, Leslie Skinner, Jim and Ben Briggs, Drewery Bondurant, Lila Choate, Olney Johnson, Roy Jurney, Milton Hackett. Out of town guests: Messrs. Edwin Linfield, Edward Luter, of Biloxi, Misses Ruth Moore, of Jackson, and Albie Happy, of Mayfield.

UNION CITY WILL CELEBRATE FOURTH.

Our enterprising neighbors at Union City will celebrate the Fourth this year, having their "big doin's" on Monday, the 5th.

While we have not seen their program, it is safe to predict that a good one has been arranged and all visitors will be shown a royal time.

After having plans well under way for celebrating last year, Union City folks kindly pulled off in favor of Hickman, and we now have an opportunity to reciprocate. Let's send them a big delegation. Hickmanites can leave here at 7 in the morning or 2:30 in the afternoon and return at 8:30, making a very desirable trip.

GERMANS NOW HAVE MORE DESTRUCTIVE GUNS.

Warsaw, June 12. — Seven-eighths of the wounds in the Galician fighting were caused by shells, half were fired from big caliber guns, according to Surgeon Major Leaghtintseff, just back from the front.

"Bullets play no part now," he continued, "and the infantryman's rifle is a toy. Infantry merely occupies the trenches the cannon have won."

Most devastating of all are the new Skoda shells of the Germanic allies, which are 17 inches in diameter and weigh 2,500 pounds. The Skoda howitzer shoots at a high angle and its shell penetrates 20 feet into soft earth before exploding two seconds after striking. These howitzers do not resemble the Krupp mortars of the same caliber to which they are said to be superior in every way.

When a Skoda shell hits, it means death to everything within a radius of 150 yards, and even farther off. The mere pressure of its gas rips open the bomb-proof shelters and catches those who escape the metal fragments and flying debris. This gas enters the body cavities and tears flesh asunder, sometimes stripping the men of their clothes. Of course, the men in the immediate neighborhood of the explosion are annihilated. So fierce is the heat of the explosion of the shell that it melts rifle barrels as if they had been struck by lightning.

One of the most delightful affairs of last week was the party given Friday night from 8 to 11 by Misses Janie Happy and Jane Binford in honor of Miss Allie Happy, of Mayfield. At seven o'clock Miss Happy entertained the girls at the Empress and at 8:30 met the boys at the home of Miss Binford. Music, dancing and games were enjoyed, also a solo by Miss Esther Holland. At the close of the evening delicious ice cream and cake were enjoyed. Those present were Misses Celeste Roberts, Thelma Baltzer, Irene and Mildred Thompson, Annie Lee Brown, Camille Barrett, Carrie May Reid, Mary Tempa Burnett, Anna Lynn Dodds, Lila Harrison, Josephine Watts and Kate Hackett. Messrs. John Harper, Lila Choate, Drewery Bondurant, Baltzer Dodds, Ben Briggs, Ben Bondurant, Olney Johnson, Dee Reid, Bob Murphy, Henry Cowgill, Milton Hackett, Leslie Skinner. Out of town guests: Misses Bessie Ruth Moore, of Jackson, Rula Johnson, of Jonesboro, Esther Holland, of Hopkinsville, Messrs. Edward Luter and Edwin Linfield, of Biloxi, Miss.

Atty. Ben Adams was in town Tuesday. He is a candidate for Commonwealth's Attorney and, in our opinion, he will not be the last man in the race.

HARRY J. MOORMAN.

When a man becomes a candidate for any office there is always a set of men who start out to bind him to them, as you may say for future reference, and strong is the man who can turn a deaf ear to the threats and promises that are made him.

Last week in Mayfield a court case that interested every man in Graves county was brought up for trial, and the court house was crowded with the sympathizers of the commonwealth and the friends of ex-Sheriff Brand, and there Mr. Moorman, in the face of the strong Brand following, made a speech of prosecution the equal of which has seldom been heard. While he made enemies, and though he knew he was making them, Mr. Moorman never hesitated to perform his full duty to the people, who indirectly gave him his office. That is the kind of man we need in our public offices and that is the kind of a man whom the steady and peace-loving men of the district will support for commonwealth's attorney.

Next week there will come up for trial in Graves county another case, which is even more important than the Brand case—that of the Allens. Those who do not know what kind of man Mr. Moorman is may soon see by watching the way in which he will conduct the prosecution in this case. Few candidates for reelection would have relished the docket in Graves this term, and Mr. Moorman's opponents have watched his conduct of the important cases with a critical eye that would have gladly seen a flaw in the work of this experienced attorney of the State. They have found none. His services are all that they should be, and he is asking for another term as a servant of the people. What do you think about him?—Clinton Gazette.

WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elion, Mo.—"I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Elion, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. USE OF COVER CROPS TO CHECK EROSION

Where Gullies Have Carried Away Soil and Subsoil to a Depth of Fifteen Feet in Mississippi.

(Prepared by the United States Department of Agriculture.)

Nearly four million acres in the United States are estimated to have been devastated by soil erosion, and a vastly larger area has lost touch of its fertility. Nowhere is soil erosion more serious than in the South. The climate, the character of the soil, the economic conditions, and the type of agriculture, which has hitherto prevailed, have all contributed to the damage, yet with the exception of the amount of rainfall every factor in erosion can be controlled by man.

Soil erosion is the carrying away of the soil by the action of wind or water. In the South the action of water is much the more important. If all the water that falls upon a given area were to be absorbed by the soil, it would cause no erosion. This, however, scarcely ever happens. When the slope of the ground or the character of the soil is such that the water runs off rapidly it carries with it a very appreciable quantity of soil particles, the quantity increasing as the speed of the running water increases. Where this erosion is excessive the soil is left bare and gullied. The land is hard to cultivate and so much organic matter is taken from it that it is frequently abandoned as too poor for profitable agriculture.

To check this process, terracing, deep plowing and the use of cover crops are advantageous. Vegetation not only breaks the flow of water over the surface thus lessening the amount of erosion, but the roots striking through the soil loosen it and enable it to absorb the water more readily. In the South the use of cover crops for this purpose is particularly important because so much of the rainfall in this section is in the winter when the land is frequently bare of crops. Winter rye is particularly advantageous in holding the soil. The value of deep plowing lies in the fact that this loosens the soil for a considerable distance below the surface and thus enables the water to be absorbed quickly. Terracing obviously is designed to provide level areas for the water to fall on instead of steep hill sides down which it can rush.

The importance of measures that will check erosion is indicated by the fact that in some southern states vast areas amounting sometimes to 50 per cent of the arable land in these sections have been abandoned because

A Gently Rolling Field Invaded by Gullies That Started on Steeper Slopes.

the water has carried off much of the best soil and impaired the value of what has been left. On moderate slopes in the Piedmont region of North Carolina erosion has been estimated to cause a yearly loss in crop values alone of three dollars an acre, making the total loss in this region over two million dollars each year. On the other hand, there are many hilly farms in which excessive erosion is effectively prevented. Farmers who wish detailed information of the best methods of terracing and other means of control, should write to the United States Department of Agriculture for Farmers' Bulletin No. 20, Circular No. 21 of the Bureau of Plant Industry or U. S. Department of Agriculture Bulletin No. 180.

When land has once been badly eroded the task of reclaiming it is apt to be difficult and long. It can be done, however, and at times may be made very profitable. An instance of this is a tract of 38 acres near Johnson City, Tenn., which was purchased four years ago for \$53 an acre. At that time the land was badly eroded and there was one gully eight or ten feet deep. This the new owner filled with debris and soil, 200 loads of manure were applied, and the soil was plowed to a depth of ten inches, planted to rye and the rye turned under. The deep plowing and the organic matter in the rye left the soil in such

condition that practically all the water which fell on it was absorbed. As a result the land increased in value so that the owner declined \$100 an acre for it. The cost of reclamation was approximately \$10 an acre. It is simpler, however, to prevent excessive erosion than to reclaim land after it has occurred.

Locations for Creameries.

In developing the dairy industry throughout the South a very important matter is the selection of the locations in which to erect creameries. No one would build a sawmill where there is little or no timber suitable to be made into lumber, and it would be equally unwise to start a creamery where the supply of milk and cream is insufficient for economical operation of the plant. In many dairy regions creameries have been operated successfully and have brought prosperity to the community. On the other hand, there are many closed creameries in the United States and many farmers who have lost money by unwise investments in them.

The first essential for the success of a creamery is a sufficient supply of milk and cream. An insufficient supply means a loss for all concerned. The number of available cows in a community is frequently overestimated. About six hundred southern cows should provide raw material enough, and it is this is sent to the creamery in the form of whole milk the cows should all be within five miles of the creamery.

In order to keep expenses reasonably low, an average of at least 1,200 pounds of butter must be made each week, which will require about one thousand pounds of butter fat. The smaller the output the greater the cost per pound of butter, for some of the expenses will remain approximately the same whether the daily output is one hundred or two hundred pounds.

If a careful canvass reveals the fact that, excluding those required to meet the demands of home consumption, the necessary cows are available, the information should be sent to either the state agricultural college or the Dairy Division, Department of Agriculture, Washington, D. C., with a request for plans and advice for the organization, building and equipment of a plant that will be likely to succeed under existing local conditions.

Next to an insufficient supply of milk, one of the most frequent causes

MAKING ROMAN CANDLES.

The process by which the roman candles are turned out may give a general idea of the construction of pyrotechnics. The tubes of roman candles are merely layers of paper rolled in shape by hand, each layer being glued to the other. They are made in all lengths and sizes, from the tiny one that splutters out but two stars to the one which holds thirty stars in its yard-length. When the tubes have been finished, one end is plugged with clay, and then the process of loading begins. A bit of slow-burning powder is first placed in the tube, then a star, then more powder, etc., until the tube has been charged with the required number of stars. A bit of the same slow-burning powder is sprinkled on the last star; a fuse is then inserted and the end sealed. The loading is not done by hand—that process is too slow.

Twenty-four empty tubes are stood upright in a vertical frame, and into them the powder and stars are alternately placed by an ingenious mechanism. The twenty-four steel ramblers firmly press the charges in place. Bombshells are made of papier mache. The spheres are molded in halves and are then joined by glue. After the glue has set the globes are wound with stout twine.

Pinwheels, like other playthings, must needs look pretty in order to sell well, and the bright colors and fancy patterns are put upon them by the deft fingers of women.

R. G. CROW A SOLDIER.

The mystery of the disappearance of Robert G. Crow, former postmaster at Cruthersville, Mo., from the Pontine Hotel, 19th and Market street, December 21 last, was partly solved yesterday, when it became known that Crow had enlisted in the United States army.

His identification was established by photographs furnished by the War Department to the National Life Insurance Company of Vermont, which conducted the investigation which resulted in his discovery.

Crow held a life insurance policy in the company and the claim presented by his wife caused the company to institute the search.

St. Louis officials of the company say they do not know at what post Crow is stationed. Mrs. Crow came to St. Louis last week and saw the photographs, which she identified as being those of her husband, they say.

It is said that Crow enlisted in the army under an assumed name. This, with the fact that he is married, constitutes fraudulent enlistment under the Army Manual, and Crow may be court-martialed and punished by the Government, according to local army officials.—Republic, June 22.

FORD TO MAKE TRACTOR.

The Ford Motor Co. will place on the market next fall a motor tractor for farm usage which it hopes to list at \$200. It may be a little more but the company expects that it will be \$200.

During the last 2 or 3 months, severe tests were made in a selected spot with the first tractor and these trials gave the utmost satisfaction to the officials. The tests were made under all kinds of soil and weather conditions, in hard ground and deep mud. Just as with the Ford passenger cars, the principal aim of the Ford company was to bring out a tractor the price of which would be within the reach of the man of moderate means.

All of the details are not yet available, but the tractor will have much of the familiar Ford appearance. It will have the rack motor, front axle and rear axle, but a much stronger motor, shaft frame. Above the will be carried by strong arms tanks. The rear large water 12 inches wide, wheels will be mud spikes padded. Flanges now in 1600 pounds, but expected that it will be reduced to 1500 pounds. The tractor is able to do easily the work of six horses, and it is expected that it will revolutionize farming methods, just as the passenger cars have changed traveling on the road.—Motor World.

THE DECLINE OF THE SMALL COUNTRY TOWN.

Hickman is one exception to the rule, but the smaller towns of the Middle West and South, or for the matter of that, in most sections east of the Rockies, have a smaller population than they had ten years ago.

Illinois is a fair sample. That State shows a decline of 184,000 people in the rural districts in the short space of ten years, while on the other hand all of the larger cities have increased in population at an astounding rate. Reflection on that condition of the country suggests the following questions which are offered for the consideration of the ministry, social welfare, and the economic and commercial organizations of the United States. Every clergyman, business and professional man, every scholar and teacher, should study the subject from various angles. Here are the questions:

1st—Why is it that many country towns east of the Rocky Mountains are at a standstill or going backward, and showing a decrease of population during the past ten years regardless of the fact that many of them are located in thriving agricultural districts?

2nd—Why is business in a majority of country towns of the Middle West stagnant or on the decline?

3rd—Why is the younger generation of people seemingly anxious to break away from the country towns and flock in great numbers to the larger cities?

4th—Is the reported exodus from the country towns to the larger cities now in greater volume or more in evidence at this time than in former years, and if so, does it in your estimation indicate a step forward or backward in the progress or healthy growth of the nation?

5th—Are the young people being driven to the larger cities through lack of commercial opportunity at home, or is their dislike for country life attributed in a large measure to the suppression of all public amusement places, and the lack of mental and physical recreation in the smaller towns?

The foregoing are a few of our questions pertaining to Home Town Building which will in the future be discussed in this column, and on which we invite correspondence from our readers.

Elsewhere in this issue of the Gazette we reprint from the Harlan Enterprise an article relative to the bestowal of the office of appellate judge upon a Democratic candidate from a Democratic county in the appellate district instead of upon a Democratic candidate from a Republican county, as has been the case in the election of Judge Nunn. To us, qualification for office should come first, to be followed, if the voter sees fit, by minor qualifications. The Hon. Gus Thomas, of Mayfield, as a candidate for the office of appellate judge stands first as a man, a Democrat and a lawyer, and there should not be any "geographical" reason for him to lose his fight.—Clinton Gazette. County School Notes

The election held on the 28th of June of consolidating on the Rural Academy Liberty resulted in a vote of 39 to 1 in favor of consolidation. The new school district will be known as Consolidated School No. 1, of Division No. 2. C. G. Alexander has been appointed as trustee to serve until the regular trustee election in August. A building committee has been appointed to select a location for the new school. The community will raise a nice sum for the new building by private donation and this added to the amount appropriated by the county board will erect a good house that we will take a pride in. Two teachers will be employed, thus giving the pupils of each grade more individual instruction.

All parties wishing to be transferred from one rural district to another should first see the local trustees of both districts concerned and present their reasons to them. The local trustees will then make recommendations to the county board.

This week Hon. R. G. Robbins, candidate for the Democratic nomination for the office of Commonwealth's Attorney in the First Judicial District, was in the city mixing with the people. He was in a most cheerful mood and expressed himself as delighted with his prospects. Certainly there is much in the political field to give him great encouragement. Recent talks with commercial travelers and others, who take a deep interest in the politics of the district, and who are well posted as to the true political conditions, indicate that his nomination for this important office is reasonably certain. It is readily conceded by all fair-minded and well-posted men that he will get a large majority in his home county of Graves, with its five thousand Democratic voters. He is also very popular all over this county, and it is manifest that he will carry Fulton county by a handsome majority. In each of the other counties he has an active and substantial following. All over the district the friends of the other aspirants are saying that Guy Robbins is the one their candidate must defeat, if their favorite is to win. Therefore, the conditions seem to point unmistakably to his nomination. The people will make no mistake in electing this splendid young man. He is an affable and cultured gentleman, and is a lawyer of great ability, with ten years experience in the general practice. This is his first time to ask the people for their support for any office. He is making an active, manly campaign and seeks the suffrage of his fellow citizens upon merit and qualifications only. If elected, the people will have an honest, able and fearless prosecuting attorney.

Thomas Taggart, Democratic Committeeman for Indiana; Joseph E. Bell, Mayor of Indianapolis; Samuel V. Perrott, chief of police, and 125 other Indiana men were indicted by the Marion county grand jury on charges of conspiring to commit felonies defined by the election laws of the State and the laws against bribery and blackmail. Taggart and Bell and less than half the others indicted last week had given bonds, which ranged from \$2,500 to \$10,000. No date for the arraignment has been announced. Mr. Taggart and Mr. Bell proclaimed their innocence.

T. A. Holcombe and family, of Greenville, Miss., arrived here Saturday to visit Hickman relatives and friends. T. A. has a good retail drug business in the queen city of the delta.

WIN THE

Grand Prize

AT SAN FRANCISCO

Panama-Pacific Exposition Judges give the Grand Prize to the Geo. E. Keith Company for WALK-OVERS. This is the highest possible award and the greatest compliment that could be paid to these world-

famous shoes, that already have a record of grand prizes awarded at previous exhibitions, both at home and abroad.

Leibovitz is the local representative of the manufacturers of this famous brand of footwear that has won, through merit, the confidence of critical people throughout the world. Our own windows now hold some of the most popular styles that helped to win at San Francisco over all competitors. If you want to know what shoe style and shoe comfort really are you must give us an opportunity to show you our complete line and demonstrate their wonderful fitting qualities.

FULTON COUNTY'S BIGGEST WHEAT TRANSACTION.

Probably the biggest wheat transaction ever recorded in Fulton county was consummated Monday when John C. Creed, of Hickman, representing the Dahnke-Walker Milling Co., contracted for the purchase of approximately 14,000 bushels of wheat from C. T. Bondurant, one of our big local planters. The price, we understand, is something in excess of \$1 a bushel.

This crop, yet unthreshed, is river bottom wheat, and is the first crop in that section on a large scale. Mr. Creed believes this wheat will grade No. 2, which is as good as any to be found south of the Ohio river, and the yield will be far above the average for this year. Last year this ground was in cotton.

The Quinine That Does Not Affect The Head
Because of its tonic and laxative effect, LAXATIVE-BROMO QUININE is better than ordinary Quinine and does not cause nervousness, porringing in head. Remember the full name and look for the signature of H. W. GROVE, Inc.

The new Grissom building in West Hickman is now under construction. It is to be a 2-story brick and the work is being done by L. N. Gregory. Mr. Grissom is still doing business in his old building, which was rolled to the middle of the street, where it will stand until the new building is completed.

Mrs. H. C. Binford returned to her home in Brownsville, Tenn., Saturday, after a two weeks visit with her son, Joe Binford.

NAMES CORRESPONDENTS FOR AGR'L. DEPT.

Hon. Lucas Moore, of Louisville representing the U. S. Dept. of Agriculture in Kentucky, was here Tuesday looking over the crop conditions of Fulton county.

While here he named a number of correspondents for the department, who will be asked to furnish monthly reports on the crop conditions of Fulton county. Heretofore Fulton county's crops have not figured in making up the State reports, which are valuable to all farmers and planters—and are furnished free.

The gentlemen named by Mr. Moore are J. B. Townsend, Herschel Johnson, Jno. Wado, J. P. Thomas, Jesse McNeil, S. L. Dadds, Jno. C. Lawson and W. A. Johnston.

There will be held Sunday evening at 7:45 a union service for the celebration of the "4th." As the Fourth comes on Sunday this year the pastors of the town thought it patriotic to hold such a service and that our people be delighted to have the opportunity to participate in such a service. This service will be held at the first Methodist church and the sermon will be delivered by the pastor of the First Baptist church, Bro. Hutchinson. All are cordially invited to attend the service.—Pastors.

Burglars entered three places of business in Fulton Sunday night and escaped. From Homer Bros. store they took several bolts of silk, worth about \$300 and some money. They secured about \$50 worth of footwear in Morris & Fry's shoe store. Chester Murrell's pressing club was entered but nothing was taken.

Arrangements have been made to move the Western Union Telegraph office from the Cumberland Telephone to the LaCleda Hotel office. The office will be moved in a few days.
